Below is a summary of your answers.

## Question 1 of 50

Which natural language processing (NLP) workload is used to generate closed caption text for live presentations?

Your Answer

☒

✓ This answer is correct.

Correct Answer

☒

✓ This answer is correct.

**Azure AI Speech** provides speech-to-text and text-to-speech capabilities through speech recognition and synthesis. You can use prebuilt and custom Speech service models for a variety of tasks, from transcribing audio to text with high accuracy, to identifying speakers in conversations, creating custom voices, and more.
